### **What is neodymium customized shape magnet?**

#### **Size of customized shape magnet**

According to customized request, neodymium magnet can make to different shape/different size. Neodymium customized shape magnets or NdFeB customized shape magnets means that its size and magnetic force is customized made by customer's drawing design.

Such as round magnet, block magnet, top hat magnet, arc magnet, magnetic assembly, wireless charging magnet, etc.

#### **How to express customized shape magnet size?**

Sending your drawing design to AIM Magnet factory and telling us your requirement on the magnet. We will do it under your requested.

#### **What is size tolerance of customized shape magnet**

Neodymium magnet size tolerance:  $\pm 0.05$  or  $\pm 0.1$ mm, according to different size request.

### **Magnetizing direction of customized shape magnet**

Generally the NdFeB/Neodymium magnets are axially, diametrically or Multi-polar magnetization. It's requested by your application.

### **What is customized shape magnet used for?**

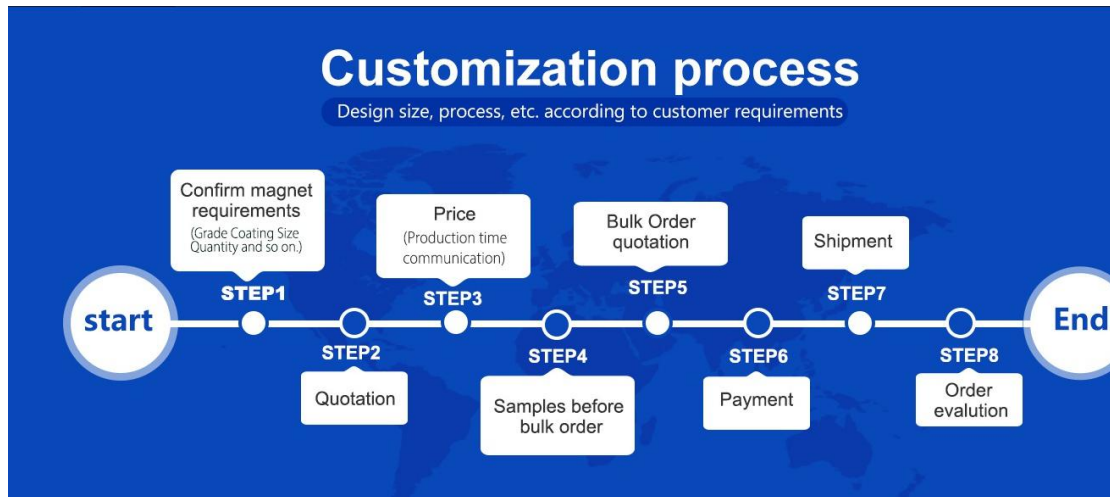

- A. Life consumption: clothing, bag, leather case, cup, glove, jewelry, pillow, fish tank, photo frame, watch;
- B. Electronic product: keyboard, electronic cigarette, display, smart bracelet, computer, mobile phone, sensor, GPS locator, Bluetooth, camera, audio, LED;
- C. Home-based: Lock, table, chair, cupboard, bed, curtain, window, knife, lighting, hook, ceiling;
- D. Mechanical equipment & automation: motor, unmanned aerial vehicles, elevators, security monitoring, dishwashers, magnetic cranes, magnetic filter.

### **Safety Warning:**

1. Make sure keep the magnets are out of reach children and pets, it is not a TOY, and small magnets will pose a choking hazard.
2. Watch your fingers, as they are very strong magnets, which are difficult to pull apart and fly together quickly from far away, so it is very easy to pinch fingers between attracting poles.
3. Keep the magnets far way from medical devices, electronic products, and magnetic media, as our magnets have strong magnetic fields which may affect and/or disrupt the functioning of these medical devices, electronic products, and magnetic media.
4. Magnets are fragile, they can crack, chip, or shatter if allowed to slam against each other. so make sure handle with care, eye protection glasses.

### **How to order neodymium customized shape magnet?**

1. When send inquiry, please advise your drawing design and requirements for customized shape magnets.
2. According to customer request, will offer our quotation and production time, if customer have samples, also can send samples for your test firstly, we will offer quotation according to customer's samples.
3. AIM Magnet samples production before bulk order production.
4. Confirm PO/PI and payment.
5. Mass production.
6. Shipment.
7. Assist customers to follow up the delivery status, after-sales follow-up.

### Buyer Guide :

In order to quote you the best price quickly . please provide the following information of neodymium customized shape magnet;

1. neodymium magnet shape, size , grade , coating, magnetic force, ect;
2. Order quantity;
3. Attached the drawing if customized;
4. Any special packing or other requirement;
5. The neodymium magnet application(product) and working temperature;
